SUBJECT INDEX*

A

- Abdominal and vaginal methods of operation in obstetrics and gynecology, (Fraenkel), 342 (Abst.)
- auscultation, postoperative, (King), 273, 587
- scar following cesarean section, endometrial adenomata in, (German), 452 (Abst.)
- surgery, protective role of the liver in, (Heyd), 203, 420
- wall, endometrioma of the, (Stein), 860
- wounds, late dehiscence of, (Kaiser), 738 (Abst.)
- Abortion, criminal, actinomyces of the female genitalia following, (Haselhorst), 266 (Abst.)
- Achondroplastic twin, (Warner), 734 (Abst.)
- Acid-base equilibrium of the blood in the late toxemias of pregnancy, (Stander, et al), 26
- Actinomyces of the female genitalia, following criminal abortion, (Haselhorst), 266 (Abst.)
- Actual cautery, new type of, endocervicitis treated with, (Baker and Miles), 548
- Adenomata, endometrial, in abdominal scar following cesarean section, (German), 452 (Abst.)
- Adenomyolipoma of the fallopian tube, a case of, (Shaw), 735 (Abst.)
- Adolescents, course of labor in, (Panek), 735 (Abst.)
- American Association of Obstetricians, Gynecologists and Abdominal Surgeons' number, 153
- transactions of, 411, 565
- obstetrics, what is the matter with, (Polak), 598 (Editorial Comments)
- Amniotic trocar, (Wilson), 118
- Anatomy of the female pelvis and perineum in relation to labor, (Hannah), 228, 415
- Anesthesia, local, in labor, (Gellhorn), 704
- Antenatal, intranatal, postnatal conditions in the United States, (Polak), 710
- Antepartum care of the mother, effect of, (Haines), 711
- Anterior hypophyses, a comparative study of the, in the pregnant and nonpregnant states, (Bacon, A. R.), 352, 426

- Aorta, systematic compression of the, during cesarean section, (Gari-puy), 611 (Abst.)
- Appendicitis in its relation to the female sex organs, (Zacherl), 272 (Abst.)
- Aschheim-Zondek test, early diagnosis of pregnancy, chorionepithelioma and hydatidiform mole by the, (Aschheim), 335
- Auscultation, abdominal, postoperative, (King), 273, 587

B

- Bacteremia, fetal; a contribution to the mechanism of intrauterine infection and to the pathogenesis of placentitis, (Kobak), 299, 428
- Baltimore Gynecological and Obstetrical Society, transactions of, 430
- Benign lesions of the uterine mucosa, transition to malignancy in, (Cooke), 210, 411
- Bicornuate unicollis uterus, pregnancy in a, with the child occupying both horns, (Gill), 553
- uterus, (Lett), 538 (Abst.)
- with retention of lipiodol in the pelvis twenty-two months after injection, (Lash), 861
- Births, thoracopagus, (Herrman), 561 (Abst.)
- Bispinous diameter, new pelvimeter for the measurement of the, (Hanson), 124
- Bladder irritability, climacteric, (Lindenberg), 562
- Blood, acid-base equilibrium of the, in the late toxemias of pregnancy, (Stander, et al), 26
- bactericidal power of the, in pregnancy and the puerperium, (Geller), 889 (Abst.)
- citrate, a simple and effective apparatus for the transfusion of, (Mengert), 126
